2. Exhibitor Profile

2.1 SalonEurope (Hall 5.1H)

SalonEurope featured quality fabrics and accessories exhibitors from European countries including Belgium, France, Germany, Italy, Slovakia, Spain, Switzerland, Turkey and the United Kingdom.

Country / Region pavilions

Milano Unica Pavilion (5.1H)

Organizer: Milano Unica

Characteristics and features of the exhibit:

Stepping into the 14th edition since its debut in March 2012, the event has become a must-see for clients of the mid to upper and high end market range. The 42 exhibitors of the Milano Unica Pavilion will present their Autumn-Winter 2019-2020 collections to the Asian market, one of the most important points of reference for Italian exports. The high quality, manufacturing style and sustainability that characterize the production of Made-in-Italy textiles and accessories are key aspects, sought out and highly valued by the increasingly demanding Asian buyers.

Exhibitor highlights:

■ **Olmetex Spa (Stand number: 5.1-M11)**

For over 60 years they have invested in research and development producing innovative products, characterized by high performance and technical finishes including coating, bonding, waterproof finishing, breathable finishing and others, suitable for sportswear, urban wear and outdoor wear. The collections consist of many combinations of fibres including cotton, nylon, polyester, mixed, microfiber, silk and wool. To protect the environment, they find alternative solutions and launched new project: PFC free.

■ **Vitale Barberis Canonico SpA (Stand number: 5.1-P14)**

They will present its new Autumn/Winter 2019/2020 collection which is divided into: Classic, Vintage, Supersonic, and Earth, Wind & Fire and takes its inspiration from the idea of Roots. In these times of great spatial, temporal and cultural fluidity, nothing is more creatively disruptive than roots. So, they have made a radical choice, targeting the hidden essence of every man: his roots. Designers have translated the textures, colors and characters of the roots of such mammoth trees as the baobab and such airy trees as the mangrove into fabrics. In this way, a collection takes on life which reminds us to go “back to our roots”.

■ **Tessilbiella Srl (Stand number: 5.1-H72)**

The fabrics offered in any weight: from those for the outdoor, with splittable double-faces and bonded qualities, to the traditional weights for jacketing. Variety ranged from Plain, fancy and jacquard fabrics for fashion apparel, sophisticated and exclusive cashmere and cashmere/ silk fabrics to Natural fibres: wools, viscose, linens, silks, mixed with elastic. Tessilbiella is keen on developing special finishes of fabrics, e.g. Starchy hand feel, washed/ultra-fulled feel, lasering, waterproofing treatment etc.

German Pavilion (5.1H)

Presented by: Federal Ministry of Economic Affairs and Energy (BMWi)

In cooperation with: Association of the German Trade Fair Industry, Berlin (AUMA)

Organized by: Confederation of the German Textile and Fashion Industry, Berlin

Characteristics and features of the exhibit:

German pavilion, with 13 quality exhibitors, will demonstrate their unique strength in textile, covering a wide variety of accessories (interlinings, threads, button), fabrics (finest cotton, print fabrics), acrylic and viscose rayon fibers & yarns and worsted yarns.

Exhibitor highlights:

■ **Suedwolle Group (Stand number: 5.1-G38)**

A family owned business in operation since 1966. They produce raw white and dyed worsted yarns from 100% Merino wool and wool blends. Yarns blended with natural and man-made fibres. Woven and knitted into fashion, lifestyle, outdoor, corporate apparel, upholstery, technical textiles. All wool products highlight: comfortable, natural and extremely light while still looking stylish – shoes made of wool! Together with 6 local partners, they will demonstrate the main theme “All you need is Merino Wool!”.

■ **Amann & Sohne GmbH & Co KG (Stand number: 5.1-E48)**

Leading global producers in the field of high-quality sewing and embroidery threads. In close cooperation with its customers, AMANN develops sewing and embroidery threads, as well as functional yarns and technical threads for tomorrow's market requirements. This autumn, they highlight sabaC (polyester/polyester core spun), Serafil fine (Polyester continuous filament), Silver-tech (Polyester continuous filament/ silver coated polyamide continuous filament).

Turkish Pavilion (5.1H)

Organizer: Uludag Textile Exporters Association

Characteristics and features of the exhibit:

The pavilion gathers 4 quality Turkish manufacturers (excluding organizer) who produce high quality fabrics, buttons & sustainable denims.

Exhibitor highlights:

■ **Soktas Dokuma Isletmeleri Sanayi Ve Ticaret Anonim Sirketi (Stand number: 5.1-E56)**

A specialist designer and supplier of luxury cotton and cotton blended shirtings and more recently jacket & trouser fabrics that offers luxury at every level. They produce fabrics made of 100% organic cotton, linen and lycra which are widely used menswear brands and artisans. Soktas will showcase their seasonal collections of cotton and cotton-blended shirting that is in tune with current trends and ahead of upcoming ones. These premium to super-premium fabrics are in styles that range from silky and sophisticated to classics with a twist; from casual, sporty chic to ingenious, environmental chic. They will also showcase their Taylord collection, fabrics that are developed and designed for jacket & trouser fabrics and which is breathable and perfect for both tailored jackets and unstructured styles without lining.

France Zone (5.1H)

Organizer: No official organizer but we allocate all exhibitors in the same area

Characteristics and features of the exhibit:

The growing demand for the high-end and luxury design market in China has encouraged the French mills continue its presence in the autumn edition. Two exhibitors will showcase their elegance and high quality collection of fabrics, and showcase the future trend in the fashion industry. .

Exhibitor highlights:

■ **Malhia Kent (Stand number: 5.1-G106)**

Malhia Kent is a Parisian fabric manufacturer focusing on the creation of fancy fabrics. Founded in 1987, the original owner collaborated with Coco Chanel who produces high fashion ready to wear. Their fabrics are 100% made-in-France; their key objective is custom requests of fancy tweeds, open works, coating, sequins, lurex, fringes, woven paper, etc. They target Pret A Porte, Haute Couture, etc. A unique yarn collection and creativity.

2.2 Asia pavilions

Taiwan Pavilion (4.1H & 5.1H)

Organizers:

Taiwan Textile Federation

Characteristics and features of the exhibit: The main product will be displayed in Taiwan pavilion including fabrics and yarn in cotton, polyester, synthetic, wool and woven, lace and embroidery, knitting, functional fabrics for outdoor and sport wear, fashion item for men and ladies' dressing.

Exhibitor highlights:

■ **Far Eastern New Century Corporation (Standard number: 4.1-H47)**

Far Eastern Textile was incorporated in 1949 and developed as a top-five polyester supplier globally and one of the leading PET suppliers in Asia.

Their major products include polyester chip, PET bottles, PET films and polyester fiber etc. In recent years, they are dedicated to develop their business in an environmental friendly way. Apart from extensively using recycled polyester and biodegradable material, Far Eastern invests in the application and promotion of biomass material as a viable substitute for traditional petrochemicals.

■ **Nan Ya Plastics Corp, F.C.F.C (Standard number: 4.1-E48)**

Nan Ya Plastics Corporation is going to present its innovative filaments including New Dope Dyed Filament "CHROMUCH", post-consumer recycle, mechanical stretch, luminance filament at autumn edition of 2018 Intertextile shanghai apparel fabrics. The luminance filament was invented with concept of enhancing people safety in having outdoor activities, it is made up of rare earth elements which could absorb, store light energy quickly and illuminate automatically in the dark. This type of filament is nontoxic, non-radiation and will not cause any harmful substances during production.

■ **New Wide Enterprise Co Ltd (Stand number: 4.1-C42)**

Driven by the corporate strategy "Quality Assurance, Product Innovation, Quick Response", New Wide is devoted to research and development of new materials. For this edition, they are proud to demonstrate UMORFIL® Beauty Fiber®, it is a supramolecular tech to integrate ocean peptide amino acid with textile materials like cellulose fiber or filament ingredients, create the bionic functional fiber series which provide the comfortable hand feeling and skin-friendly texture. UMORFIL® is the only with HALAL certificate in the world and characterized as skin friendly which have higher moisture regain (16-18%, same as wool) and passed irritation skin test with medical level ISO 10993). Moreover, they are the major suppliers of well-known sport brands including New balance, Adidas, Puma, Reebok, Fila.

Korea Pavilion (5.1H)

Organizer: Korea Trade-Investment Promotion Agency (KOTRA), Korea Fashion Textile Association (KFTA)

Characteristics and features of the exhibit:

Korea pavilion members focus on ladies wear and functional wear where variety of fancy fabrics, lace and embroidery can be found among exhibitors' collection. Moreover, lots of exhibitors also showcase their product range including cotton, polyester & blend, jacquard, printed, circular knit and woven fabric etc. Man-made fibers such as fake fur is also seen in the pavilion.

Exhibitor highlights:

■ **Sealon Co., Ltd. (Stand number: 5.1-C99)**

Sealon was established in 2002 to become a manufacturer of seam tapes and adhesive films. Their products can be applied on garments, shoes, socks, bags and hats etc. As the partner of Bluesign, the highest level of textile-related certification standard, Sealon has a strong responsibility to protect the environment by minimizing the effect during the production process. They are also certified with Oeko-Tex and ISO 9000.

■ **HANIL SYNTHETIC FIBER CO., LTD. (Stand number: 5.1-B92)**

Hanil Synthetic Fiber was established in 1964 and they are the first Korean company to produce acrylic fiber. Their key products include ELEX® - a special fiber to remove static in the synthetic fibers which gained a domestic patent in Korea; HANILON® - a highly bulky and practical fibers that has a wide variety of uses, from fashion fabrics to home supplies.

Japan Pavilion (5.1H)

Organizer: Japan Fashion Week Organization (JFW)

Characteristics and features of the exhibit:

Bringing 31 quality Japanese mills, the pavilion will celebrate its 10th anniversary (14th including Spring Editions) and consolidate its status as a pillar of business internationalization. The Japanese exhibitors have strong originality in Japanese designs and will demonstrate advanced development of both natural and polyester fibers. Many of them accepted small order quantity starting from 1m and can handle stock orders in quick deliveries.

Exhibitor highlights:

■ **Teijin Frontier Co Ltd (Stand number: 5.1-C55)**

It will commemorate their 6th year of participation at the Intertextile Shanghai event. They aim to increase their recognition in the China market while showcasing their strategic PTT textile and developed products < SOLOTEX > and enhancing other differentiated product proposals. They will also feature: 'SOLOTEX' textile alongside cut and sewn items, 'MINOTECH', retaining high water-repellency, alongside 'DELTAPEAK' and its new texture feel.

■ **Crystal Cloth Co Ltd (Stand number: 5.1-B67)**

CRYSTAL CLOTH CO., LTD. dealing with fabric design/sales for ladies wear, will mark its sixth participation. They showcase mainly cotton, linen and silk for spring/summer and wool and natural fibre for autumn/winter. Their advantage includes 'high designing/planning ability', as strongly reflected in the product development such as jacquard, yarn-dyed textile, patterned fabrics, prints and knits alongside color variation for each line. Amid trends within the ladies wear field changing ever more rapidly, so they enhance unique and wide-ranging product proposals with their original finishing techniques, while promoting the particular sought-after luxury feel through their own filter.

■ **Shibaya Co Ltd (Stand number: 5.1-E63)**

Aiming at 'increasing domestic sales in China, they showcase approximately 500 part items, including a variation on wool, alongside items with enriched surface feel and finished by salt shrinkage treatment. Nomura Trading <Shanghai> has been assisting them in following up on domestic sales in each local region in China; Shanghai, Beijing, Chengdu, Tsingtao and Shenzhen.

Hong Kong Pavilion (5.1H)

Organizer: Hong Kong Trade Development Council (HKTDC)

Characteristics and features of the exhibit:

HKTDC aims to help Hong Kong's small and medium-sized enterprises (SMEs) to connect with business clients and partners around the world. HK Pavilion participates the 3rd time at the fair and brings total 14 members from Hong Kong to demonstrate a diverse range of products including chiffon, net yarn, satin, silk, lace and embroidery, cotton, knitted, woven fabrics, jacquard fabrics, zippers, as well as textile manufacturing technologies.

■ **Wide Foundation Limited (Stand number: 5.1-D11)**

Wide Foundation Ltd is a Hong Kong based company with factory in Quanzhou. It is a manufacturer and exporter of quality zippers to international manufacturers across a range of industries. They have been offering continuous zipper chains of Nylon zipper (Coil zipper), Plastic zipper (Delrin zipper), Metal zipper and Invisible zipper to zip assembly manufacturers for over 25 years.

■ **Alliance Enterprise International Limited (Stand number: 5.1-C14)**

Alliance is famous for its high-class lace in specialized production technology, as well as the consummation enterprise management and the production management experience. The company has over 10 year's experiences in the industry. Their product series contains the chemical embroidery lace, allover embroidery lace, gallop embroidery lace, badge lace and many other kinds of products, and carries on the embroidery using different raw materials, like different kinds of mesh, chiffon and so on.

Thailand Pavilion (5.1H)

Organizer: Department of Export Promotion, Ministry of Commerce, Royal Thai Government

Characteristics and features of the exhibits:

They will showcase a majority of lace and embroidery as well as man-made fabrics mainly for ladies wear, casual wear and sportswear. On the other hand, some pavilion members will also present the garment accessories, fibres and yarns at the fair.

Exhibitor highlight:

■ **GEP Spinning Co Ltd (Stand number: 5.1-E11)**

They will mainly promote the natural fibre FILAGEN® (collagen fiber) which is an innovative functional fiber that has marine collagen peptides incorporated into the body of viscose fiber providing a high level of comfort and protection for fabrics and garments. In addition to its soft, lustrous fibers, FILAGEN® also has an outstanding performance in skin extra moisturizing, deodorization and UV protection. Thus, wearers will experience softness, comfort as well as optimal surface warm and cool sensations while healthy skin remains.

India Pavilion (4.1H)

Organizer: The Cotton Textiles Export Promotion Council (TEXPROCIL)

Characteristics and features of the exhibit:

In this edition, Texprocill brings total 7 exhibitors to showcase hand-made embroidery, cotton fabrics, knitted fabrics, cotton yarns, polyester/viscose, suiting & shirting fabrics, and also providing CAD/CAM solutions for textile & retail solutions in fashion industry.

Exhibitor highlights:

■ **Pilani Impex (Standard number: 4.1-A59)**

Pilani Impex is a manufacturer and exporter based in Mumbai. They specialize in cotton cambric & voile, viscose printed fabrics, shirting & suiting fabrics, denim etc. They are currently producing & shipping 1 million meters fabric every month. They have in-house design team which helps in producing seasonal & theme based designs.

Pakistan Pavilion (4.1H & 7.2H)

Organizer: Consulate General of Pakistan-Shanghai, Trade Development Authority of Pakistan

Characteristics and features of the exhibit:

Pakistan pavilion participated the autumn edition for the second time implying that this show is effective for its members to penetrate China's market and important for their implementation of export strategy. For this edition, 8 exhibitors spread between the 4.1H international fabric hall and the 7.2H oversea denim hall, showcase their quality cotton fabric, jeans wear, casualwear and ladies wear.

Exhibitor highlights:

■ **Anam Weaving Mills (Stand number: 4.1- L10)**

Anam weaving mills established in 1991 and focuses in manufacturing greige, dyed and printed woven fabric. They provide customized weaving solutions and cater all possible weaves, constructions and widths (15" to 127") and offer options to select leno or tuck in with written selvedge in various polyester, cotton and special fiber blends. Their expertise lies mainly in dishdashi and caftan for traditional wear in Middle East and Africa markets and camouflage for hunting industry in USA. They are also licensee of world famous camouflage fabrics.

■ **Zaman Textile Mills (Pvt) Limited (.Stand number: 4.1-L14)**

Zaman Mills is one of the dominant raw yarn suppliers from Pakistan. They are primarily dealing with spinning yarn, textile garments, textile cotton yarn, raw cotton, cotton seed, waste and other related products. Their business activities are spread across various countries in Asia, Middle East, Far East and Europe with an annual revenue of around USD 75 million.

2.3 Group pavilions

Birla satellite zone, India (4.1H) *NEW

Birla Cellulose started its journey in the 1940s. It started as a vision of the Aditya Birla Group that foresaw the limitations of cotton and polyester, and identified the need for a suitable alternative, natural, man-made fibre that would eventually take the textile world by storm. It is emerging as the largest producers of Viscose Staple Fibre (MMF) in the world. Birla Cellulose offers the finest range of soft, flowing, nature-based and man-made fibres that are best suited for apparel and home textile applications.

Organizer: Aditya Birla Group - Birla Jingwei Fibres Co Ltd

Characteristics and features: There're total 11 exhibitors in the pavilion. The fibres of Birla Cellulose can be used in their 100% form, as well as in blends with all natural and synthetic fibres like cotton, polyester, acrylic, wood and silk. The pavilion is going to focus on cellulosic fibres, viscose, modal, acrylic fibres, viscose blended acrylic, spunshade yarn etc.

Button & Garment Accessories Industry Chamber, Hong Kong (6.2H)

It's a non-profit association from Hong Kong, with around 20 members. The members are manufacturers of button and garment accessories, mainly came from Hong Kong and China. The aims help its member to stay competitive, enhance the productivity by exchanging techniques, providing suppliers information and sharing the latest industry news etc.

Organizer: Button & Garment Accessories Industry Chamber

Characteristics and features: It's the 2nd year to organize and group its members to join the exhibition. This edition, the association brings 5 members to the fair, some of them are the first time to join overseas zone. They will showcase high quality garment & fashion accessories and a wide range of buttons in different materials, such as metal, polyester, leather, nylon, alloy, shell etc.

DuPont Pavilion, Taiwan China (4.1H)

DuPont pavilion returns to the autumn fairs and brings total 18 members to demonstrate a diverse range of products as well as showcase their latest fabric innovations.

Organizer: E.I. DuPont de Nemours and Company

Characteristics and features: The Sorona® Stretch Fibre offers a superior solution for its manufacturing, excellent stretch recovery, exceptional softness, colour fastness, in comparison to dyes in polyurethane fibres. Stretch, eco-friendly are important attributes nowadays in multiple apparel applications, including performance sportswear, work wear and more casual athleisure clothing.

ECOCERT+GOTS Pavilion, China (5.1H) *NEW

The Global Organic Textile Standard (GOTS) is the worldwide leading textile processing standard for organic fibres, including ecological and social criteria, backed up by independent certification of the entire textile supply chain. GOTS certified facilities are located in 62 countries around the world with continuous growth in both regions of production and consumption.

ECOCERT is an inspection and certification body for organic agricultural products. Established in France in 1991 and specialized in organic textile standard like GB/T19630-2011, GOTS and OCS.

Organizer: Beijing ECOCERT Certification Centre Co Ltd

Characteristics and features: For their first time co-operate and form a pavilion together, GOTS + ECOCERT will bring 8 members, to showcase organic cotton, organic linen, bamboo, tencel, modal, hemp fabrics and a wide range of cashmere products at the show.

Exhibitor highlights:

■ **Hemp Fortex Industries (Rushan) Ltd (Stand Number: 5.1-F134)**

Hemp Fortex is a vertically integrated manufacturer and converter. They produce and manufacture hemp, organic cotton, recycled cotton, and recycled polyester, all with the utmost respect for the environment.

Hyosung Group, Korea (4.1H)

Hyosung Group is a comprehensive fiber manufacturer which produces the majority of high-quality textile products. They specialize in producing nylon, polyester, spandex as well as dyed, processed fabric products.

Organizer: Hyosung International Trade (Jiaxing) Co Ltd

Characteristics and features: Hyosung Pavilion is showcasing the functional fibers that is suitable for sportswear, athleisure, swimwear and intimate apparel. The creora® brand has a range of functional fabrics for different uses such as excellent dye-ability, heat resistance, degradation prevention etc.

Indian Chamber of Commerce (4.1H & 6.2H) *NEW

Founded in 1925, the Indian Chamber of Commerce (ICC) as it is popularly known, is the premier body of business and industry in Eastern and North-Eastern India. The membership of the Chamber comprises several of the largest corporate groups in the country, with business operations all over the country and abroad. As a forward-looking Chamber, ICC strives to create awareness and opportunities for Indian Industry in order to make, and keep it competitive and adaptive to global economic changes.

Organizer: Indian Chamber of Commerce

Characteristics and features: It's the 1st time to join Intertextile. ICC brings 10 members to showcase quality fabrics and accessories from India, including hand-made lace & embroidery, ribbon, cotton fabrics, man-made fabrics, such as polyester, viscose, poly cotton etc. The pavilion will be allocated in both international fabrics hall (4.1H) and accessories hall (6.2H).

INVISTA Group, USA (4.1H, 7.2H)

INVISTA, headquartered in USA, is one of the world's largest integrated producers of polymers and fibers that transformed the world of fashion and performance garments (intimate apparel, swimwear, active wear, denim, sweaters and legwear) with innovations such as LYCRA® fiber, COOLMAX® fabric and THERMOLITE® fabric and insulation.

Organizer: Invista Fibers Company Ltd

Characteristics and features: Same as last autumn, INVISTA will have 2 pavilions separately in hall 4.1 and 7.2 Beyond Denim. With 19 co-exhibitors, INVISTA pavilion@ Functional lab will continuously show their innovation products:

- LYCRA® MOVES™ BRA: a cutting-edge technology in bra wings to provide support, comfort and aesthetic design.

- LYCRA® MOVES™ LEGGINGS: it has spawned LYCRA SPORT Power-Comfort-Energy index certified fabrics for leggings from high to light compression segment.

- LYCRA® MOVES™ HOSIERY: it demonstrates properties including anti-laddering, fit and durability as well as comfortable waistband.

With 7 co-exhibitors, *LYCRA® MOVES DENIM* Pavilion will not only showcase innovation denim products but also highlight through consumer insight – fit, shape embracing heat & cold with their LYCRA® dualFX® dual core yarn technologies in denim.

Korea Outdoor & Sports Industry Association (KOIA), Korea (4.1H) *NEW

Korea Outdoor & Sports Industry Association was set up in 2013 to support the growth of the Korea outdoor industry through participating the overseas exhibitions, hosting the forum and seminar. There are 150 members in the association and most of them are the outdoor manufacturers, distributors, retailers and brands in the active and functional outdoor lifestyle in local market.

Organizer: Korea Outdoor & Sports Industry Association

Characteristics and features: 3 pavilion members will display the outdoor fabrics as well as garments and high-functional textiles at the fair.

KTC Pavilion, Korea (4.1H)

Korea Textile Center (KTC) was a non-profit government office based in the Daegu Metropolitan City. KTC was set up to promote the textile and apparel industry in Daegu and Gyeongsangbuk-Do district. There are 70 members in KTC at the moment and KTC is also act as the representative and local sourcing center to promote Made in Korea fabrics.

Organizer: Korea Textile Center

Characteristics and features: This edition 7 exhibitors joined KTC Pavilion showcasing nylon, polyester and blended woven fabric as well as fabric mixed with spandex to create high stretchability. KTC Pavilion also brings products with advanced coating effect such as matt and vintage.

Korea Textile Trade Association (KTTA), Korea (5.1H)

Korea Textile Trade Association (KTTA) is a non-profit organization to promote the textile products produced in Korea. KTTA focus on developing unlimited business opportunities around the globe for Korean manufactures.

Organizer: Korea Textile Trade Association

Characteristics and features: KTTA Pavilion has brought a diversified product range to the fair including synthetic and blended fabrics for functional use in sportswear and outdoor wear. Other than functional fabrics, the pavilion will also showcase other fabrics for ladies wear and daily casual wear.

Exhibitor highlights:

- **DK&D CO.,LTD(DOORIM) (Stand Number: TBC)** DK&D was established in 2000, this company has developed its main business in synthetic leather products. The artificial leather is widely used for shoes, balls, clothes, accessories, furniture etc. Other than artificial leather, DK&D also developed the product line in non-woven products, polyurethane resin and Hologram release paper.
- **WOOWON UMF CO., LTD (Stand Number: TBC)**
Woowon is specialized in artificial leather such as pu leather, semi-pu, pvc leather, hologram pu etc. They have developed high-function treatment in anti-graffiti, anti-microbial and flame resistant. In addition to trading in domestic market, Woowon also developed export business in oversea market.

The Lenzing Satellite, Austria (4.1H)

Lenzing, headquartered in Austria, supplies the global textile and nonwovens industry with high-quality man-made cellulose fibers. The portfolio ranges from dissolving pulp, standard and specialty cellulose fibers to engineering services. With 75 years of experience in fiber production, the Lenzing Group is the only company worldwide combining the manufacturing of all three man-made cellulose fiber generations on a large industrial scale under one roof – from the classic viscose to modal and lyocell fibers.

Organizer: Lenzing Fibers (Hong Kong) Ltd

Characteristics and features: Lenzing will promote TENCEL™ Lyocell fibers and TENCEL™ Modal fibers which can be combined with a wide range of textile fibers such as cotton, polyester, acrylic, wool, and silk to enhance the aesthetics and functionality of fabrics. Unique physical properties of TENCEL™ Lyocell fibers lead to their great strength, efficient moisture absorption and gentleness to skin. TENCEL™ Modal fibers are a highly compatible blending partner for cotton and due to the fiber's sleek cross section, adds long-lasting softness to fabrics, enhancing the touch even after repeated washing.

Oeko-Tex Pavilion, Switzerland (5.1H)

The International OEKO-TEX® Association, made of 16 independent textile research and testing institutes. As for now, they have more than 140,000 certificates issued since 1992 for millions of products, and 10,000 participating companies in over 90 countries. TESTEX Swiss Textile Testing Ltd is the official OEKO-TEX® Representative in China.

Organizer: Oeko-Tex Association and TESTEX Swiss Textile Testing Ltd

Characteristics and features: TESTEX and their 10 OEKO-TEX® certified companies, together with their partner ZDHC, will show up as a pavilion group with concept of textile ecology.
