Exhibitor Profile- Country / Region pavilions

SalonEurope (5.1H)

SalonEurope featured quality fabrics and accessories exhibitors from European countries including France, Germany, Italy, Switzerland, Turkey and the United Kingdom.

Milano Unica pavilion (5.1H)

Organizer: Milano Unica

Supported by: Ministry of Economic Development, ICE, Sistema Moda Italia, the Municipality of Milan and Banca Sella.

Characteristics and features of the exhibit:

This is the 15th edition held in the framework of Intertextile. The Chinese market confirms its wealth of opportunities for high end textiles and accessories. In addition to the traditional men's wear fabrics, the demand of fabrics and accessories for women's wear and children's wear are shown increasingly rapidly. MU Shanghai continues in its role as a catalyst for the development of Italian companies in Asian market.

Exhibitor highlight:

■ **Intesa C Srl (Stand number: 5.1-J43)**

Intesa C srl was founded in 1988 by Olindo Cervella, following over twenty years of experience in both the textile and clothing industry. It immediately established itself as a reference point for many Italian wholesalers and garment makers. Following the evolution of the textile industry, it then also began to stand out in the foreign markets and its collections are now present in more than 30 countries around the world. Intesa carries the goal to "dress" women in every moment of the day: in everyday life, with practical and comfortable fabrics; in free time, with sports fabrics; on important occasions, with elegant and refined fabrics that underline femininity.

■ **Lanificio Luigi Colombo SpA (Stand number: 5.1-J69)**

Lanificio Luigi Colombo is the world's largest producer of cashmere and high quality. From the meticulous selection of fibers to their transformation into yarns and fabrics right to the finished product. Each single phase takes place within a vertical structure under the close supervision of the Colombo Family to guarantee the highest possible degree of quality. For example, the fibers manufacturing consists in ninety-four production steps and eighteen intermediate controls in order to guarantee the top and detailed quality product.

■ **Tessuti Di Sondrio - Marzotto Group (Stand number: 5.1-J51)**

With over 120 years of textile tradition, Tessuti Di Sondrio excels in its industry and to produce every year approximately 6 million meters of fabrics, between yarn-dyed, piece-dyed, and ready for garment dyeing. In each process Tessuti Di Sondrio uses special water that is recognized at a European level for the properties that make them unique. As unique as the "hands" and the sensations, because it eliminates the use of acids, caustic soda, resins as well as reducing the use of soaping agents and auxiliary chemicals. Thus, the fabrics are the first choice of men and women from America, Asia, Australia and Europe which testifies to the company's passion for the world of fabrics.

Turkey zone (5.1H)

With 4 new companies recorded in the Spring Edition, the Turkey zone in SalonEurope has reached 10 exhibitors who cover a range of cotton, knitted, man-made and jacquard fabrics.

■ **Ramnur Tekstil San Ve Tic Ltd Sti (Stand number: 5.1-F47)**

The company started commercial life in a small shop - named by sainted Rahmi Yilmaz back in 1935. After 80 years development, Ramnur has expanded to 1.5million annual production capacity by 2005 after manufacturing in Bursa. The 99% of the production has been exported so far. They have two main brands: the DORLEO and TERRACOTTA.

■ **Unlu Transfer Tekstil San Ve Tic Ltd Sti (Stand number: 5.1-F35)**

Unlu Transfer offers design and color to suit all lifestyles, preferences and products. Their specialty is creative excellence to fit whether the hottest new trend or something more traditional and romantic. Unlu Transfer is considered as the leading resource for inspiration and style for any designer as well. The company has a

creative team who can quickly evaluate client needs and produce instant color representations using the latest CAD technology. Their clients are well known fashion brands including Zara, Mango, H&M, Topshop, Umbro, Sisley, etc.

France zone (5.1H)

Organizer: no official pavilion organiser. Group fabric exhibitors from France together in one area.

Characteristics and features of the exhibit:

The growing demand for the high-end and luxury design market in China has encouraged the French mills continue its presence in the spring edition. Three exhibitors will showcase their elegance and high quality collection of fabrics with embroidery, original French Leavers lace for cocktail, wedding dresses, lingerie and garments.

Exhibitor highlight:

■ **Jean Bracq (Stand number: 5.1-G47)**

Founded in 1889 in Caudry, in the North of France, creates and makes the world's oldest and exceptional woven fabrics--- Leavers laces for its prestigious clients. Jean Bracq laces are characterized by its refinement and quality which has become well known in the whole world and used in famous fashion houses such as Chanel, Valentino, Chole, Dior and more. Celebrities including former US first lady Hilary Clinton, Michelle Obama and Carole Middleton. Moreover, they got certificates from Oeko-Tex, Entreprise du Patrimoine Vivant and Ecogriffe also further proven the quality of Jean Bracq lace.

■ **Solstiss Sarl (Stand number: 5.1-F48)**

Founded in 1974 with the union of five renowned lacemakers Ledieu Beauvillain, Henri and Victor Machu, Robert Belot and Edouard Beauvillain who decided to pool their expertise and share this with the world. Having been declared a 'Living Heritage Company' in 2011, the firm has really made a name for itself in France in the space of just a few years and is now synonymous with quality, mastery and carefully preserved expertise. Solstiss masterpieces include Grace Kelly's lace wedding dress when she married the King of Monaco, the black lace dress worn by Marilyn Monroe in 1955-1957, and the black lace veil worn by Audrey Hepburn. They also supplies the most prestigious names in the fashion world, such as Chanel, Louis Vuitton, Christian Dior, Dolce & Gabbana, Valentino & more

German zone (5.1H)

Characteristics and features of the exhibit:

5 quality exhibitors who specialize in high end button, print and cotton fabrics for high end luxury market.

Exhibitor highlight:

■ **Transfertex GmbH & Co Thermodruck KG (Stand number: 5.1-E60)**

Pioneer in heat transfer printing. One of the few companies with a fully integrated manufacturing process for printing papers and films. Flexible in supply from 1 meter of transfer printing paper up to many thousands of meters. Beside fashion collection, they now also focus on ready-to-print designs and customized print design for team sport and active wear with sustainable sublimation paper which creates less waste.

Asia pavilions (5.1H)

Korea pavilion (5.1H)

Organizer: Korea Fashion Textile Association (KFTA)

Characteristics and features of the exhibit:

67 pavilion members brings a wide range of high quality fabrics to the fair, including functional, mixed, lace and embroidery, linen/ramie, cotton, digital print, silk and knitted etc. Those fabrics are widely adopted in ladies wear, casualwear, sportswear and outdoor wear.....Nearly one third of them accept small orders.

Established in 1980s, Sooty aims at inspire everyone to love denim and for denim to be completely sustainable. As we all know, the production process of denim products will cause great pollution and the finished products will also have problems in degradation. In October 2018, Sooty took a step forward to collaborate with fabric manufacturer Lenzing and Bestseller's brand "ONLY" to produce revolutionary eco-black jeans named forever black series. The eco-friendly jeans are made from Tencel Modal fabric certificated by EU Ecolabel, which is mainly composed of wood fibers. Compared with traditional denim fabrics, it consumes 50% less in water, energy and 60% less in carbon emissions.

First-time Exhibitors highlight:

- **Mitsubishi Chemical Corporation (Japan) (Stand number: 5.1-C48)**
They are the only producer in the world of triacetate, marketed under the Soalon brand. They have a great know-how in the production of hybrid textiles based on triacetate fibres which are widely used for famous luxury brand. Natural textile is gentle to skin. Elegant gloss and chromogenic properties.
- **Tessitura Marco Pastorelli SpA (Italy) (Stand number: 5.1-J35)**
Established in 1961, the family-run company which maintains its values and principals and is now in its 4th generation. Fusion of creativity and fibres, together with a vast selection of materials, allow it to offer different types of linings, pocket linings, technical fabrics and interlinings for men, women and children's clothing to Europe and overseas markets.
- **Machine Elements (Fujian) Smart Print Technology Co Ltd (China) (Stand number: 5.1-E118)**
Setup in 2016, Machine Elements offers digital printing solutions with their expertise. Their product covered machinery, ink and other spare parts. Their machines can direct printout digital image onto finished garment and with equal quality to traditional printing.
- **Hebei Meixian Cashmere Textile Technology (Hong Kong) Co Ltd (Hong Kong) (Stand number: 5.1-G141)**
In order to launch the Italian cashmere spinning technology in China, M.ORO has hired Mr, Giacomo Coda Zabetta, the Italian expert in cashmere spinning to be the site engineer to provide technical, bringing Italian cashmere spinning skills to company as to provide buyers with genuine Italian craftsmanship. In 2017, M.ORO realized the cashmere traceable industrial chain and won the only "organic cashmere" certification in the world.

Quality Exhibitors highlight:

■ **Asahi Kasei Corporation (Japan) (Stand number: 5.1-E47)**

They will continuously promote Bemberg which has over 90-year history (a regenerated fiber made from cotton linter which is biodegradable and not normally used as fiber). Bemberg follows the movements of the body, creating a seductive, charming sheen so the wearers feel its softness and smoothness – like second skin – even better than viscose rayon, silk and cotton. They will demonstrate the usage of Bemberg with their partners' fabrics and interlining products.

Fringe Programme

- Trend Forum
- Trend Tour
- Panel Discussion
- Seminar
- Digital Printing Forum

Trend Forum

Inspirational trend forums highlighting Spring / Summer 2020 trends help you find fashionable products easier.
