As the countdown to the 2018 edition of Cinte Techtexsil China enters its last two months, the final exhibitor line-up is starting to take shape. A number of leading international and Chinese brands across the fair's 12 product application areas will feature at the Shanghai New International Expo Centre from 4 – 6 September, with an expected 500-plus total exhibitors from around 20 countries & regions set to feature.

Nonwovens exhibitor highlights

As the fair's largest product category, buyers have a wide range of domestic and overseas brands to source from, including:

- **Johns Manville (US)**: who will showcase their polyester spunbond, PP & PBT meltblown, glass fibre nonwoven, micro glass fibre nonwoven, hybrid nonwoven, glass fibre needle mat and glass microfibre product lines among others at the fair.
- **J.H. Ziegler (Germany)**: with over 150 years' expertise and their own production plant in China, they offer products for acoustic absorption in automotive interiors and exteriors, nonwoven foam composites for leather lamination, needle-punched nonwovens, foam nonwoven composites, laminated nonwovens and natural-fibre nonwovens.
- **KOBE-cz (Czech Republic)**: a new exhibitor to the fair, their nonwoven fabrics, mainly made from glass fibre with temperature resistance up to 800°C, are used for high-temperature isolation in the automotive, marine, energy and building industries. They also have isolation materials made from natural fibres including hemp, wool, cotton and flax.
- **TDF Nonwovens (China)**: one of the leading domestic brands, their specialties are polyester spunbond geotextiles, polyester filament roofing carriers, filter nonwovens, high-strength coarse denier polypropylene spunbond geotextiles and medical & health nonwovens.
- **Kingsafe (China)**: they specialise in the production of fusible interlining and nonwoven fabrics for high-end garments.

Yarn & fibre exhibitor highlights

- **Perlon (Germany)**: has developed a PET based monofilament, HighGrip, which guarantees long-lasting efficiency of conveyor belts, and is available in various types with different tribological characteristics, which they will feature at the fair.

Messe Frankfurt (HK) Ltd
35/F, China Resources Building
26 Harbour Road
Wanchai, Hong Kong

- **Sateri (China):** is a global leader in viscose rayon made from 100% dissolving wood pulp, and the largest maker of viscose fibre in China. Their natural and high-quality fibre, made from trees grown on renewable plantations, can be found in textiles and skin-friendly hygiene products.
- **Cordenka (Germany):** producers of industrial rayon, their product range covers rayon tire cord, yarn, single-end dipped cord, short-cut fibre and more.
- **EMS-Griltech (Switzerland):** will showcase a range of technical fibres & yarns and thermoplastic adhesives at the fair.
- **Barnet (Germany):** several finished products (nonwovens, spun yarns and fabrics) made with their specialty fibre will be on display at the fair, including OPAN, para-aramid and carbon filament fibres. The application of their specialty fibre in flame retardant and anti-cut gloves and felts will be shown at their booth for the first time.

Coated textiles & solutions exhibitor highlights

- **Stahl (the Netherlands):** the Dutch company will present new products from their water repellent and flame retardant ranges at this year's fair. According to the company, as the Chinese government continues its efforts to clean up the environment, eco-friendly chemicals remain in strong demand in the country.
- **Sioen (Belgium):** will showcase sign materials, truck tarpaulins, tents, membrane fabrics, apparel products, chemicals and specialty products such as inflatable boat fabrics, pool liners and more at Cinte 2018.
- **ROWA Lack (Germany):** a new exhibitor at this year's fair, they will present their special lacquer systems and top coatings.
- **Trelleborg (Sweden):** also a new exhibitor, they will display engineered textiles, especially in the fields of outdoor, medical, protective and automotive.
- **FPC Technical Textile (Saudi Arabia):** another first-time participant at the fair, they will showcase a range of high-end specialty fabrics including PVC coated fabrics and fibre glass PTFE fabrics.
- **Zhejiang Jinda New Materials (China):** this supplier is known for its coated textiles for industrial, transportation and building uses, as well as warp knitted geo-synthetic materials and printable coated materials for advertisements.

Lenzing to showcase its new VEOCEL™ nonwovens specialty brand at the fair

First announced in June this year, and featuring at Cinte Techtexsil, Lenzing's new VEOCEL™ brand is billed as a premium range of nonwovens fibres for daily care, which "provides the nonwovens industry with fibres that are certified clean and safe, biodegradable, from botanic origin and produced in an environmentally responsible production process." Products in this range can be applied to a multitude of uses including baby care, beauty and body care, intimate care and surface cleaning, under the VEOCEL™ Beauty, VEOCEL™ Body, VEOCEL™ Intimate and VEOCEL™ Surface brands.

Background information on Messe Frankfurt

Messe Frankfurt is the world's largest trade fair, congress and event organiser with its own exhibition grounds. With more than 2,400 employees at 30 locations, the company generates annual sales of around €669 million. Thanks to its far-reaching ties with the relevant sectors and to its international sales network, the Group looks after the business interests of its customers effectively. A comprehensive range of services – both onsite and online – ensures that customers worldwide enjoy consistently high quality and flexibility when planning, organising and running their events. The wide range of services includes renting exhibition grounds, trade fair construction and marketing, personnel and food services. With its headquarters in Frankfurt am Main, the company is owned by the City of Frankfurt (60 percent) and the State of Hesse (40 percent).
