From 4 – 6 September, leading innovations and technologies from around the world will feature in the Shanghai New International Expo Centre for Cinte Techtextil China 2018. **With a growing technical textile market in China and Asia, big industry names will come to showcase new products. The Belgium, Germany and Taiwan Pavilions are predicted to draw a crowd with their return, while the Czech Republic Pavilion makes its debut appearance.**

Fresh innovation from the Taiwan Pavilion

The Taiwan Pavilion lives up to its reputation as one of the leading sources of industry innovation. Ten exhibitors in the Taiwan Pavilion will showcase a variety of innovations ideal for a number of industries. With advances in medical and hygiene product technologies, exhibitors Web-Pro Corporation will offer protective cover-all materials that resist pathogens and micro-organisms and multi-layered PE films for hygiene products, while Kae Hwa Industrial will introduce their developments in materials that protect against viruses. Four Elements Energy Biotechnology will showcase their multi-functional Masterbatch product, a unique FDA-qualified, anti-mildew and transparent plastic additive that repels bacteria.

Other exhibitors to watch out for in the Taiwan Pavilion include Ritex Machinery, who will display their Air Through machinery which can be applied to nonwoven fabrics for hygienic, medical and filtration uses. Everlight Chemical Industrial's Evereco® adhesives introduce an eco-friendly solution with heat-resistance and other resilient properties. Also offering eco-friendly alternatives is TomLong Techstle and their TPU coated fabrics, ideal for waterproof and inflatable products.

Productivity and efficiency at the German Pavilion

Following high demand in the Chinese market, the German Pavilion returns with around 30 exhibitors, showcasing their expertise in efficiency in textile production. Highlights include Baumüller Nürnberg's modular concepts and intelligent automations which allow flexible reactions to changeable market requirements. Edelmann Technology brings new high speed winder systems for increased production rates and new concepts for reducing contamination in products. ISRA Surface Vision will present 100% inline optical surface inspection methods for quality control and process optimisations. Another product to watch out

Messe Frankfurt (HK) Ltd
35/F, China Resources Building
26 Harbour Road
Wanchai, Hong Kong

for is Kufner's xShield®, a lightweight, soft textile with 99% shielding efficiency against electromagnetic radiation.

Other big names in the German Pavilion include Autefa Solutions, Brückner Textile Technologies, Dornier Lindauer, IBENA, J.H. Ziegler, Kufner, Perlon and more.

Belgium Pavilion returns along with a Czech Republic debut

Organised by Fedustria (Belgian Textile, Woodworking and Furniture Industry Federation), the Belgium Pavilion will include textile recycling company Belrey Fibres, engineered fabrics by Pennel & Flipo for marine and rescue industries, as well as leading coating specialists Vetex who will feature a variety of functional tapes, and R&D institute Centexbel who carry out research projects across the entire textile and polymer production chain.

The new Czech Republic Pavilion organised by ATOK, the Association of Textile-Clothing-Leather Industry, will showcase three exhibitors who will provide solutions for technical yarn, fabric processing and nonwoven fabrics. These include: GF Machinery, showcasing R&D and production of special machines and lines for glass / basalt yarn and fabric processing; Retex's nonwoven needle-punched and air laid textiles; and STAP, Europe's biggest manufacturer of narrow fabrics.

The Cinte Techtexil China fair is recognised by European manufacturers as a gateway to the Asian market. With investment from China boosting the technical textile industry, and more Asian countries than ever developing their technical markets, Cinte Techtexil China 2018 is set to be a hub of business potential.

Cinte Techtexil China is organised by Messe Frankfurt (HK) Ltd; the Sub-Council of Textile Industry, CCPIT; and the China Nonwovens & Industrial Textiles Association (CNITA). To find out more about the fair, please visit: www.techtexilchina.com. For more information about Messe

Background information on Messe Frankfurt

Messe Frankfurt is the world's largest trade fair, congress and event organiser with its own exhibition grounds. With more than 2,400 employees at 30 locations, the company generates annual sales of around €669 million. Thanks to its far-reaching ties with the relevant sectors and to its international sales network, the Group looks after the business interests of its customers effectively. A comprehensive range of services – both onsite and online – ensures that customers worldwide enjoy consistently high quality and flexibility when planning, organising and running their events. The wide range of services includes renting exhibition grounds, trade fair construction and marketing, personnel and food services. With its headquarters in Frankfurt am Main, the company is owned by the City of Frankfurt (60 percent) and the State of Hesse (40 percent).
